Web Page:

I am seeking reelection to the office of State House of Representatives, District 4, which includes the lower Puna subdivisions from 8 Mile Camp through Hawaiian Fern Acres. After serving the people of Hawaii in elected office on county and state levels for 24 years, I have the experience and knowledge to accomplish my goals, without having to spend time in learning the process. In addition I can point to a creditable record of accomplishments and have earned a reputation as an advocate for people's rights.

An educator by profession I hold B.S. and M.A. degrees from the University of Minnesota and additional postgraduate work in other institutions. Also I am a member of the Education and Higher Education and the Health and Human Services Committees. My main role is as Chair of the International Affairs Committee. Our goal is to position Hawaii as a global leader in commerce, education, and as a model to bring peace to the world by our example of showing how people of different races, ethnicities, religions, and cultures have embraced the Hawaiian heritage of Aloha.

I have many projects started for my district that I want to see completed: Kikala-Keokea Hawaiian village; Pahoa High and Intermediate School Gym with \$4 million already appropriated, study of a Puna dialysis center, promotion of Puna products.

At age 86 I am still healthy and active and desire to continue to help improve the quality of life for all our people.
